#### A MetaReport\*

Dynamic Release September 15, 2008  
Final Release December 15, 2008

#### Industry's First Research Report On Regenerative Cardiology That:

- Identifies the reasons for the recent setbacks in the clinical trials;
- Articulates a strategy to resolve those problems, revitalize the on-hold programs, and revive those terminated;
- Prepares the Industry for the **SECOND WAVE** of clinical trials

\* MetaReport uses a proprietary methodology that eliminates all possible sources of biases and prejudices
